

WebAuditX Security Assessment Report

Target	http://itsecgames.com/index.htm
Scan Date	19-04-2026 16:29
Security Score	1.5/10
Risk Level	Critical

Note: Higher score indicates better security posture.

Executive Summary

The target system is critically vulnerable and requires immediate remediation.

Findings Summary

Severity	Count
High	1
Medium	5
Low	3

Detailed Findings

Type	Severity	Description
Header Issue	Medium	Missing Content-Security-Policy
Header Issue	Medium	Missing X-Frame-Options
Header Issue	Medium	Missing X-Content-Type-Options
Header Issue	Medium	HSTS not applicable (HTTP site)
Header Issue	Medium	Server reveals technology: Apache
Open Port	Low	Port 22 (SSH) is open
Open Port	Low	Port 80 (HTTP) is open
Open Port	Low	Port 443 (HTTPS) is open

SQL Injection	High	SQL Injection detected! Payload Used: ' OR '1'='1 Test URL: http://itsecgames.com/index.htm?id=' OR '1'='1 Evidence: Database error keyword detected: mysql Impact: Attacker may extract or manipulate database data.
---------------	------	--

Passed Security Checks

- No XSS detected
- No sensitive directories exposed

Recommendations

- Close unused ports or apply firewall rules
- Add security headers (CSP, X-Frame-Options, HSTS)
- Use parameterized queries / ORM
